Mobile: +91-7989810279

linkedin.com/in/rishi-naga-sai-mukka github.com/rishighb

Skills

Design: Figma, Wireframing, Prototyping, Design Systems, User Flows, Information Architecture

UX Research: User Research, Heuristic Evaluation, Competitor Analysis, Usability Testing, Journey Mapping

Product Thinking: Design Thinking, Problem Discovery, User-Centered Design, Stakeholder Communication

Data & AI: Data Visualization, Tableau, Power BI, Excel, AI-Assisted Design, Predictive Analytics

Programming: Python, Java, SQL, C

Projects

- APPSC Portal Redesign | GitHub**May 2026
 - Conducted heuristic evaluation and competitor analysis to identify usability bottlenecks affecting candidate onboarding and application completion.
 - Redesigned the registration journey through user flows, wireframes, and high-fidelity interfaces, transforming complex government workflows into intuitive multi-step experiences.
 - Developed a scalable design system with reusable components and leveraged AI-assisted prototyping to validate interaction patterns efficiently.
- Renewable Energy Generation Forecast | GitHub**Feb 2026
 - Investigated challenges faced by analysts in interpreting fragmented renewable energy datasets distributed across multiple reports and formats.
 - Structured complex energy data into an accessible analytical experience, enabling exploration of renewable capacity and production trends across countries.
 - Designed visual insights and forecasting workflows that supported decision-making through clear, user-friendly data storytelling.
- EDA of Indian Population & Demographics | GitHub**Jul 2025
 - Explored demographic datasets to understand how policymakers and researchers could better interpret regional development indicators.
 - Analyzed literacy, urbanization, and population trends to uncover meaningful patterns and communicate insights effectively.
 - Designed intuitive visualizations and dashboard-driven storytelling experiences focused on accessibility and clarity.

Training

- Think Design & Prototype (Code Companion) | GitHub**Jul 2025
 - Conducted user research to identify challenges faced by students while learning programming concepts and accessing coding resources.
 - Created personas, user journeys, wireframes, and interactive prototypes for a mobile-first learning platform focused on intuitive navigation.
 - Refined the solution through usability evaluations and developed a consistent visual design system, earning an **A Grade**.

Certificates/Certifications

- Design Thinking & Figma | LPUJul 2025
 - Java Basics | HackerRankJul 2025
 - The Ultimate MySQL Bootcamp | Udemymar 2024

Education

Lovely Professional UniversityPunjab, India

B.Tech - Computer Science and Engineering (Data Science & Machine Learning); CGPA: 7.54Aug 2023 – Present

Bhashyam Junior CollegeAndhra Pradesh, India

Intermediate (PCM); Percentage: 92.9%Jun 2021 – May 2023

Bhashyam Public SchoolRajahmundry, Andhra Pradesh

10th Percentage: 99%2020 – 2021
